EXAMINATION PREPARATION PROGRAMME JUNE PRACTICAL 2019

EXPECTS OF EXAMINATION PREPARATIONS

Dear Aspirant Doctor

Following the success of the short Program on the Basic Principles of HPCSA Board, presented during 2018 in Pretoria. The program will run during the weekdays I would like to invite you for a participation of the most interesting and exciting Examination Preparation of our Practical with Dr Shongwe, and he is ready to assist us with a very low-cost program that will suit all the applicants.

You will have individual training and extensive access to all equipment and materials we have. This will allow you to familiarize yourself with the mannequins so that you are comfortable and appear highly competent when dealing with stressful situations in the exam.

Here, you will get used to handling OSCE stations under the pressure of an examiner and the limited 7 min at each station. But what will truly set you apart from all other candidates is the intimate knowledge of exactly what each station and each examiner is looking for, the unknowable key phrases and mannerisms that the different universities and examiners in South Africa uniquely look for.
